Taking advantage of the 'silly season', Bovis Homes has put in a revised planning application ([192482](#)

) for land east of the 'Barratt' site, ie. south of the bypass and further towards the Gloucester Road. The closing date for representations is next Thursday, 22nd August.

Click on the image above to view a larger version.

The major differences between this one and its predecessor ([174745](#) , which was [withdrawn](#) in July 2018) are a reduction from 185 dwellings to 140 and yet another roundabout on the bypass.

Bovis Mk.2

The bypass is in danger of ceasing to serve its purpose though being less attractive to through traffic, especially on the Malvern to Hereford route, which could easily increase traffic through the town. This is quite apart from extra traffic generated by the site itself, which would become yet another little ghetto completely separated from the rest of Ledbury.
