Hurrah to Somerfield in New Street Ledbury for providing a recycling collection point for Tetrapack cartons. Although Malvern have several in council car parks, this is the only one we have (as far as I know!).

The black skip is clearly visible just outside the entrance, convenient for the car park and for passersby.

A large number of drinks cartons for juices, smoothies, UHT milk, soya milk and fresh soup can be recycled, just check on the base or side for the tetrapack logo. It could save a lot of space in your black sack, and if and when we get charged per bag, it could save you money too!

If anyone knows of other sites for tetrapack recycling close to Ledbury, comment on this article or post your tips in the [Green Issues Forum](#)
